

Memorials, unique as life itself

*For centuries many have
been drawn to the sea*

*Create an everlasting memory,
with a living eternal reef*

Over time, your reef will evolve to
become its own unique marine habitat

Customize your experience

Cost effective

Environmentally friendly

Honor your loved one with an eternal reef

*Looking for a unique way to memorialize a
loved one? Create a custom reef!*

Immortalize your loved one
in a reef made with their ashes.

Name the eternal reef and commemorate
them with a memorial plaque.

Place the reef in a region of your choice.

Service the reef with a ceremony.

Remember the reef and ceremony with
professional video and photography.

*We can provide a custom memorial that
satisfies the needs and wishes of your family.*

The memorial consists of an 8' Florida Limestone artificial reef,
a 6,000 lb concrete structure,
built to withstand storm events.

It has a 10' footprint
designed to prevent
settling and scouring.

Limestone rock gives it
a greater surface area
and complexity which
attracts marine life.
